Installation DDC_U v125

07.10.2020

1.)   copy the file „DBBC3 Control DDC_U_v125.exe" in the folder C:\DBBC\bin, overwriting
        the existing file if necessary

2.)   copy the firmware-file
        - dbbc3_ddc_U_v125-1hv1_071020_1.bit (for a 1hv1-DBBC3)
        - dbbc3_ddc_U_v125-2hv2_071020_1.bit (for a 2hv2-DBBC3)
        into the folder C:\DBBC_CONF\FilesDBBC

3.)   copy the config files
        - dbbc3_config_file_ddc_U_125.txt (check that number of used boards, COM-Ports are
          correct for your system, adjust if necessary, make sure the correct firmware is selected)
        - ddc_U_core3H_1.fila10g, ddc_U_core3H_2.fila10g,... (make adjustments to Ethernet
          Configuration in the file if necessary)
        - config_adb3l.txt (only if not already present!)
        - config_ddc_U.txt (adjust frequency setup if necessary)
        into the folder C:\DBBC_CONF

4.)   follow the instructions in the manual
        - Setting up the DBBC3 for DDC_U mode_v125.pdf
